Card sorting results

I used optimal workshop's card sorting method to give people links to my stuff. I asked 4 people to fill it out for me but only 2 ended up doing it. The other 2 I did myself.
Out of the 4 sorts this was the Similarity Matrix

Personal Bio

After looking at this data and what I meant by these card as I created them this is what I'm going to put together

Group 1

Picture of me
Hobbies
Personal Bio
Interesting Facts
Phone Number

Group 2

What I'm seeking
Resume
References
Work Experience
Email Link

Group 3

Tech Skills
Personal Skills
Extracurricular Activities

Group 3

Greek life
MSU
Adrian
Educational Accomplishments

Reason for group 1.

- All of these things help underline who I am and why I am the way I am.
- I could put "personal skills" and "Extracurricular Activities" But I felt they fit better in a skills and activities group.
- I could also see "What I'm seeking" to fit here, but I want people looking at that to be directed to my resume and references besides my hobbies or personal bio

Reason for group 2

- These are all my resume stuff that directly relate with my resume and what I am looking for in a job. Aka where I want to be.
- Everything here is what someone interested in me needs to see to think about hiring me, thus why my email link is here rather than with my more contact information. (I'll probably have my email address and phone number in both places though)

Reason for group 3

- It's hard to argue that these three things all go together in some way, however I could also see them going with group 2. Because personal and Technical skills both are important in the resume/hiring process.
- It's a potential i might merge these two groups together but I really think group 3 is a bit different than group 2 and deserve a different area.

Reason for group 4

- I see this group as being more of a storyline of my thought process of why I initially chose Adrian a private, liberal arts college, joined Greek life (and what I learned from it) and then transferred to MSU. With the focus on my college experiences, educational Accomplishments (like scholarships and dean's lists stuff)
